Installation Instructions

Lumen Logic RGBW LED Corner Floor Lamp
LLSI-9103

WARNING

This luminaire is intended for installation in accordance with local codes and the National Electric Code (NEC). Failure to adhere to these codes and instructions may result in serious injury, property damage and void the warranty.

These instructions do not intend to cover all variations in installation, operation maintenance or mounting situations.

1. Identify all parts before installation.
2. This luminaire is suitable for dry location only.
3. WARNING: risk of electrical shock. Use included power supply only.
4. WARNING: risk of fire. Keep this lamp away from materials that may burn.
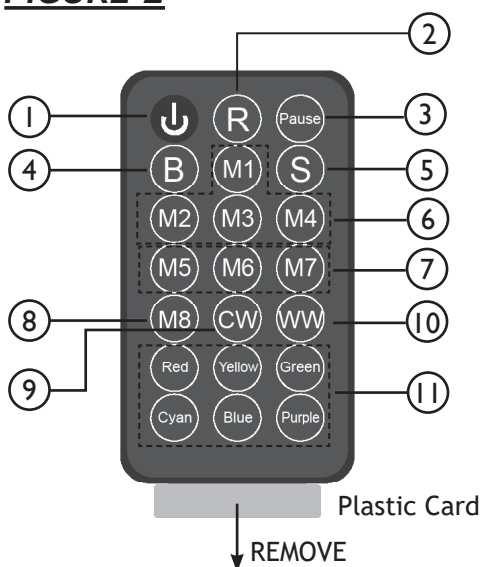

1. Connect the quick connector on the leg with supply wire to one of the quick connector on the lamp module. (Tip: Pick the side of the lamp closest to the outlet you are plugging into)

2. Insert the unused quick connector on the lamp module into the leg without supply wire. Align the hole on the bottom of the leg to snap-fit on the bottom of the lamp module, push the ends of two legs on to the lamp module.

3. Connect the USB plug of the supply wire to the USB socket of power adaptor.

4. Place the corner lamp to the desired corner. Connect the power adaptor to the wall outlet properly (input voltage 100-240V). Press ON/OFF key on the IR remote controller to light up the corner lamp.

5. The corner lamp may not be parallel to the wall because of uneven ground surface. If so, add the included washers to the bottom of the legs of the corner lamp to adjust accordingly.
